Emergency Response Unit (ERU).

The Broadpoint Emergency Response Unit (ERU) delivers communication when and where you need it. That's why municipal and law enforcement communities have relied on Broadpoint for years. Our ERU comes with all the equipment needed to handle communications at an emergency response site. The package includes wireless communication, Internet, VPN and a remote access.

Our flexible Emergency Response Unit delivers communications when and where you need it. Package provides payment options based on per-minute charges, per-MB charges and prepurchased blocks of minutes and data. To keep satellite service active, a small monthly fee is required.
