

Connect & Deliver.

Broadpoint provides highly-reliable satellite communications and innovative solutions to commercial and government clients globally. Some of the largest and most progressive companies in the world depend on Broadpoint's technology and expertise for far reaching and critical communications capabilities. All services are backed by a world-class technical support and engineering team. Since 1976, Broadpoint has earned a reputation for providing best-of-class, cutting edge technology combined with highly-trained professional service technicians to set and raise the bar throughout the satellite communications industry.

Satellite solutions.

Loud and clear.

Connect to people and data offshore and onshore with reliable satellite systems.

- Star or mesh networks
- Dedicated or shared bandwidth
- 24x7 customer support
- Mobile marine service
- Transportable service
- Fixed VSAT service
- LAN/WAN connectivity

Product packages.

Now, Broadpoint has added ready-to-deploy VSAT service packages that enable us to provide the most flexible and secure VSAT solutions at affordable rates. Companies of all sizes can enjoy reliable communication solutions at prices that don't sacrifice quality. And like all of our products, our VSAT network is backed by Broadpoint's promise of high-quality service and customer support through our 24/7 network operations center.

Standard services

Our standard service packages provide the highest value for simple access to voice, fax and data services. These packages offer VoIP service, fax capabilities and access to the public Internet with various bandwidth configurations designed to meet the most common communication requirements for customers on fixed locations.

Standard services	Series 128	Series 256	Series 384	Series 512
Data bandwidth	1024/128	1024/256	384/384	512/512
Voice/fax lines	1V/1F	2V/1F	3V/1F	8V/1F
Internet access	Public	Public	Public	Public
IP addresses	3	5	8	10
Antenna type	Fixed	Fixed	Fixed	Fixed

Enhanced services

Broadpoint's enhanced service packages provide more flexibility and control for users that have more demanding communications needs. Providing VoIP or circuit switched voice, Class-3 fax capabilities and access to the public Internet with options for private backhaul, the enhanced services were designed for customers requiring occasional dedicated, burstable bandwidth for certain network applications. The services are available on fixed or stabilized antenna platforms meeting the demands for the maritime industry as well.

Enhanced services	Series 160	Series 288	Series 576	Series 1024
Data bandwidth	64/64 (160)	128/128 (288)	256/256 (576)	512/512 (1024)
Voice/fax lines	1V/1F	2V/1F	4V/1F	6V/2F
Internet access	Public	Public	Public	Public
IP addresses	Private class C	Private class C	Private class C	Private class C
Antenna type	Fixed/Stabilized	Fixed/Stabilized	Fixed/Stabilized	Fixed/Stabilized

(Speeds listed are average CIR+ maximum burstable rate.)

Current Broadpoint customers with VSAT services can offer secure, private communications networks to clients and other third parties through our Add-On Satellite series. Using existing fixed or stabilized VSAT terminals, the ASAT series allows multiple users to have separate communications networks without requiring extra capital equipment or on-site visits for standard packages. The ConnexstarSM series offers customers an Internet data connection for their networks or SCADA applications.

Add-on services	ASAT 64	ASAT 128	CONNEXSTAR SM
Data bandwidth	64/64	128/128	1024/128, 256, 512
Voice/fax lines	1V/1F	2V/1F	Data only
Internet access	Public	Public	Public
IP addresses	Private class C	Private class C	Private class C
Antenna type	Fixed/Stabilized	Fixed/Stabilized	Fixed
